Docket No. 1005.7 Customer No. 53953

Amendments to the Claims

The following listing of claims will replace all prior versions, and listings, of claims in the application.

 (Currently amended) A method performed by a computer system, comprising: storing an electronic version of a paper, wherein the electronic version is displayable on a display device as a likeness of the paper;

detecting content of a first portion of the likeness; and

after the detecting of the content, and in response thereto, forming a hyperlink reference and embedding the hyperlink reference within at least part of the content of the first portion of the likeness, wherein the hyperlink reference is associated with a second portion of the likeness, such that when the first portion of the likeness is displayed on the display device, at least a portion of the content is selectable by a user to cause the computer system to display the second portion of the likeness on the display device, and wherein the content is at least one of the following: a term that indicates a location at which the second portion of the likeness is located within the paper; and a phrase that indicates the location.

8. (Currently amended) A system, comprising:

a computing device for:

storing an electronic version of a paper, wherein the electronic version is displayable on a display device as a likeness of the paper; detecting content of a first portion of the likeness; and after the detecting of the content, and in response thereto, forming a hyperlink reference and embedding the hyperlink reference within at least part of the content of the first portion of the likeness, wherein the hyperlink reference is associated with a second portion of the likeness, such that when the first portion of the likeness is displayed on the display device, at least a portion of the content is selectable by a user to cause the computing device to display the second portion of the likeness on the display device, and wherein the content is at least one of the following: a term that indicates a location at which the second portion of the likeness is located within the paper; and a phrase that indicates the location.

15. (Currently amended) A computer program product stored on a tangible computer-readable medium, comprising:

a computer program processable by a computer system for causing the computer system to:

store an electronic version of a paper, wherein the electronic version is displayable on a display device as a likeness of the paper;

detecting content of a first portion of the likeness; and

after the detecting of the content, and in response thereto, form a hyperlink reference and embed the hyperlink reference within at least part of the content of the first portion of the likeness, wherein the hyperlink reference is associated with a second portion of the likeness, such that when the first portion of the likeness is displayed on the display device, at least a portion of the content is selectable by a user to cause the computer system to display the second portion of the likeness on the display device, and wherein the content is at least one of the following: a term that indicates a location at which the second portion of the likeness is located within the paper; and a phrase that indicates the location.

Docket No. 1005.7 Customer No. 53953

- 24. (Cancelled).
- 25. (Previously presented) The method of claim 1, wherein the content is at least one of the following: a term that indicates a page of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page.
- 26. (Previously presented) The method of claim 1, wherein the content is at least one of the following: a term that indicates a page number of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page number.
- 27. (Previously presented) The method of claim 1, wherein the content is at least one of the following: a term that indicates a title of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the title.
- 28. (Previously presented) The method of claim 1, wherein the paper is at least one of the following: a newspaper; a magazine; and a journal.
- 29. (Previously presented) The method of Claim 1, wherein the electronic version is a first electronic version of the paper, and comprising:

translating a second electronic version of the paper into the first electronic version.

- 30. (Previously presented) The method of Claim 1, and comprising: highlighting the hyperlink reference.
- 31. (Cancelled).
- 32. (Cancelled).
- 33. (Previously presented) The system of claim 8, wherein the content is at least one of the following: a term that indicates a page of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page.

Docket No. 1005.7 Customer No. 53953

- 34. (Previously presented) The system of claim 8, wherein the content is at least one of the following: a term that indicates a page number of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page number.
- 35. (Previously presented) The system of claim 8, wherein the content is at least one of the following: a term that indicates a title of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the title.
- 36. (Previously presented) The system of claim 8, wherein the paper is at least one of the following: a newspaper; a magazine; and a journal.
- 37. (Previously presented) The system of Claim 8, wherein the electronic version is a first electronic version of the paper, and wherein the computing device is for: translating a second electronic version of the paper into the first electronic version.
- 38. (Previously presented) The system of Claim 8, wherein the computing device is for:

highlighting the hyperlink reference.

- 39. (Cancelled).
- 40. (Cancelled).
- 41. (Previously presented) The computer program product of claim 15, wherein the content is at least one of the following: a term that indicates a page of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page.
- 42. (Previously presented) The computer program product of claim 15, wherein the content is at least one of the following: a term that indicates a page number of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page number.

Docket No. 1005.7
o Customer No. 53953

- 43. (Previously presented) The computer program product of claim 15, wherein the content is at least one of the following: a term that indicates a title of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the title.
- 44. (Previously presented) The computer program product of claim 15, wherein the paper is at least one of the following: a newspaper; a magazine; and a journal.
- 45. (Previously presented) The computer program product of Claim 15, wherein the electronic version is a first electronic version of the paper, and wherein the computer program is processable by a computer system for causing the computer system to:

translate a second electronic version of the paper into the first electronic version.

46. (Previously presented) The computer program product of Claim 15, wherein the computer program is processable by a computer system for causing the computer system to:

highlight the hyperlink reference.
